PROJECTS

HelloWasim - Personal Portfolio 🔗

- Built with Next.js and Tailwind CSS, featuring a clean, responsive design optimized for performance and accessibility.
- Added theme switcher and animated backgrounds for a customizable, modern user experience.
- Used Framer Motion for smooth animations across all sections to boost interactivity.
- Developed a contact form that stores messages and user details securely in MongoDB.

ShopX – Clothing E-Commerce App 🔗

- Developed a clothing e-commerce platform using the MERN stack, focused on scalability and user experience.
- Integrated Razorpay, Stripe, and COD for secure and flexible payments.
- Built user authentication and an admin dashboard for real-time product, order, and user management.
- Implemented product search and filtering to enhance discoverability and shopping flow.

Real-Time Chat Application 🔗

- Developed a real-time chat application using React.js and Firebase, enabling users to send and receive messages instantly with a smooth, interactive experience.
- Integrated Firebase Authentication for secure user login and session handling.
- Utilized Firestore for real-time message storage and retrieval.
- Created a clean, responsive UI for consistent performance across all devices.
